

Declaration

on transport of oversized load

Oversized load in the conditions of NOVÁ HUŤ s.r.o. is such load, the dimensions of which with vehicle (even one of the dimensions) exceed the given parameters as given below:

- Length: 16.5 m
- Width: 2.55 m
- Height: 4.0 m

All loads (products, structures, assembled parts, machine parts and device etc.) which fulfil definition of the oversized load can be transported in the Premises of NOVÁ HUŤ s.r.o. solely upon fulfilment of the following conditions:

- Before passing through the Premises the driver, and/or his fellow passenger must get a thorough knowledge about the route they are going to take, they must assess its passing through, agree upon execution of necessary countermeasures with owner of the route and respect given conditions.
- They must observe all the legal stipulations relating to road transport, especially those relating to transport of oversized load.
- they must respect the maximum admissible speed when travelling in the Premises with oversized load, while this speed is set to 20 km/hour.

I hereby confirm by my signature that during transportation of the said oversized load in the Premises of NOVÁ HUŤ s.r.o. I will observe all the above-given conditions relating to its transport.
